Director, Nuclear Reactor Regulation
Attention: Mr. Domenic B. Vassallo, Chief
Operating Reactors Branch No. 2
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Subject: Emergency Plan Review Fees
Cooper Nuclear Station
NRC Docket No. 50-298, DPR-46

Reference: 1) Letter from J. M. Pilant to E. G. Case
dated July 5, 1978, "Amendment No. 40
to Final Safety Analysis Report"

Dear Mr. Vassallo:

Reference 1 forwarded Amendment No. 40 to the CNS Final Safety Analysis Report which was the Emergency Plan which CNS was utilizing at that time. At the request of the NRC License Fee Management Branch, payment in the amount of \$4,000 was subsequently submitted for the review and approval of Amendment No. 40. Numerous versions of the Emergency Plan have been submitted to the NRC for information since that time, and since there is no requirement for the NRC to "approve" Emergency Plans, no fees are now required. Since review and approval never commenced for our Reference 1 submittal, Nebraska Public Power District respectfully requests a refund of the \$4,000 fee.

Should you require further clarification or justification, please call me.

Sincerely,

Jay M. Pilant
Division Manager of Licensing
and Quality Assurance
