

1/29/82

Docket: 50-285/81-32

Omaha Public Power District  
ATTN: W. C. Jones, Division Manager  
Production Operations  
1623 Harney Street  
Omaha, NE 68102

Gentlemen:

This letter refers to the October 19-23, 1981, routine inspection conducted by Mr. R. A. Caldwell of NRC's Region IV office. The activities inspected were those that are authorized under NRC License DPR-40. It further refers to the discussion that Mr. Caldwell had with you concerning his findings at the conclusion of the inspection.

The inspection related to your program and activities designed to protect against industrial sabotage and to safeguard special nuclear material. The inspection was based on the applicable provisions of Title 10, Part 50 of the Code of Federal Regulations entitled "Licensing and Utilization Facilities," within Part 73 entitled "Physical Protection of Plants and Materials," and the specific requirements of NRC License DPR-40. Areas examined during the inspection are discussed in the enclosed inspection report. Within these areas the inspection consisted of selective examinations of procedures and records, personnel interviews, and observations by the inspector.

No violations of NRC requirements, within the scope of this inspection, were identified. However, one item remains unresolved and may become a violation at a later date.

The documentation of findings of your control and accounting procedures for safeguarding special nuclear materials and your facility's security procedures are exempt from disclosure. This exemption is covered within Title 10 CFR Part 73.21 entitled "Protection of Unclassified Safeguards Information."
