and Quality Assurance
Post Office Box 499
Columbus, Nebraska 68601

Gentlemen:

This refers to the routine radioactive waste systems inspection conducted by Mr. L. Wilborn accompanied by Mr. B. Murray of this office during January 11-15, 1982, of the activities authorized by NRC Operating License DPR-46 and to the discussion of the inspection findings held by Messrs. Murray and Wilborn with Mr. Lessor at the conclusion of the inspection on January 15, 1982.

Areas examined during the inspection and our findings are discussed in the enclosed inspection report. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspectors.

Within the scope of the inspection, no violations or deviations were identified.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room unless you notify this office, by telephone, within ten days of the date of this letter and submit written application to withhold information contained therein within 30 days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1).
