Subject: Limerick Generating Station Units 1 & 2
Request for Additional Information-
Unresolved Safety Issues

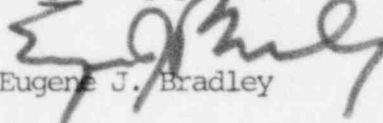

Dear Mr. Schwencer:

Your letter dated February 9, 1982 transmitted the subject request and suggested an early March meeting to discuss same with your staff.

As discussed with your Messrs Abelson and Anderson on February 18, 1982, we plan to submit on March 31, 1982 a revision to the Limerick FSAR which will provide the requested information. On that basis, the proposed March meeting was deferred to provide your staff the opportunity to examine our submittal and better determine their information needs.

Very truly yours,

Eugene J. Bradley
