SECTION 1

PROCEDURE TITLE AND NUMBER  
 EI 1300.08 - Emergency Control Center Activation

REASON FOR CHANGE  
 As identified during the annual Station Emergency Exercise, the set up and operability testing of RMT equipment located in the ECC was hampered by a lack of working space. To alleviate this problem, the RMT Equipment Cabinets will be moved to the Radiological Testing Lab., which is located on the north end of the first floor of the Davis-Besse Administration Building, in close proximity to the ECC. The EDO will retain responsibility for the direction of RMT's and equipment, as per this procedure (EI 1300.08).

CHANGE  
 On Page 2, Section 5.3.5 should read:

5.3.5 The EDO shall assign an individual(s) to set-up necessary emergency equipment (located in the Davis-Besse Administration Building Radiological Testing Lab.) as listed on Attachment 1.

On Page(s) 7, 8, 9, Equipment List, page headings should be changed to read as per the attached sheets. Equipment contained in these cabinets is identified by cabinet number (instead of cabinet location), and are located by page heading, as per attached sheets.
