License No.: 29-30575-01

Docket No: 03035405

Control No: 617708

Mr. Keller:

This refers to your request to amend your license dated January 2, 2020, In order to continue our review of your request, the following additional information is needed:

1. Please note that the NRC can only put on your license the storage location in Rocky Hill, CT. The other two locations in New Jersey and Massachusetts are in Agreement States and are governed by those state's regulations and to store regulated material in those locations you would need to possess an Agreement State license in those respective locations.
2. Due to the formatting of the NRC licenses, please state the maximum number of portable gauges, of each manufacturer and model number, that you would like to possess under your license.
3. Please note that the model number for Humboldt gauges are 5001.
4. Please state if you would like to remove Cf-252 off of your license due to the fact that there are very few portable gauges that use the isotope Cf-252.

Your reply must be an originally signed and dated letter. The letter may be scanned and submitted as a pdf document attached to an email; or it may be transmitted by facsimile to (610) 337-5269; or it may be sent by regular mail. If we do not receive a reply from you within 30 calendar days from the date of this e-mail, we will assume that you do not wish to pursue your amendment request.
