Dear Mr. Haynes:

In our referenced (b) letter on the above subject deficiency, we committed that all corrective actions were to be completed by February, 1982. However, in addition to the rework at the vendor's facility, some work has to be performed at the plant. Hence, the work is not expected to be fully completed until April 30, 1982.

If there are any questions on the matter, we would be pleased to discuss them with you.

Sincerely,

JMC/kk
