Commonwealth Edison Company
(Quad Cities Station, Units 1 and 2)
Docket Nos. 50-254-SP and 50-265-SP

Dear Mr. Collins:

Enclosed are four cases cited by the Licensing Board in their special prehearing conference order.

A fair reading of them indicates the adequacy of an EIA, rather than an EIS, in spent fuel pool proceedings such as the present one.

Sincerely,

Richard J. Goddard
Counsel for NRC Staff
