Dear Administrative Judges:

Re: In the Matter of Offshore Power Systems
(Floating Nuclear Power Plants)
Docket No. STN 50-437

In the Application for Manufacturing License, page 1, the Applicant, Offshore Power Systems, is described as "an unincorporated joint venture of Westinghouse Electric Corporation, a Pennsylvania corporation, and its wholly-owned subsidiary, Westinghouse International Power Systems

Sheldon J. Wolfe, Esq., Chairman
Dr. David R. Schink
Dr. George A. Ferguson
Atomic Safety and Licensing Board
March 5, 1982

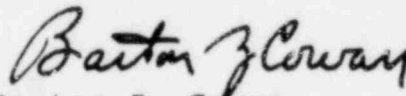

-2-

Company, Inc., a Delaware corporation." We wish to advise the Board that on February 1, 1982, Westinghouse Electric Corporation ("Westinghouse") announced that Offshore Power Systems became a division of the Water Reactor Divisions of Westinghouse.

Although the unincorporated joint venture, Offshore Power Systems, will remain in existence and will retain ownership of the manufacturing facility, all personnel of Offshore Power Systems, as of March 1, 1982, became personnel of the Offshore Power Systems Division of the Water Reactor Divisions of Westinghouse. Mr. A. R. Collier remains as President of Offshore Power Systems Division and will report directly to Mr. James S. Moore, Vice President and General Manager, Water Reactor Divisions. Other personnel identified in the application remain unchanged.

The change in reporting does not impact the licensing process for the floating nuclear power plants and Offshore Power Systems remains the applicant under STN 50-437. The quality assurance program for activities under the Manufacturing License Application, as described in Volume 8, Chapter 17, of the Plant Design Report remains in effect.

Very truly yours,

Barton Z. Cowan
