

NAR 12 1982

Docket No. 50-528 (RS)

Arizona Public Service Company  
P. O. Box 21666  
Phoenix, Arizona 85036

Attention: Mr. Larry Matteson  
Western Division Engineering Supervisor  
APS Goodyear Office

Dear Mr. Matteson:

Enclosed you will find a copy of a letter to Mr. Robert Burke, Lead Joint Use Specialist, APS, which we believe will be self explanatory. You will also find a copy of the NRC-TLD location description and route book as an aid in locating those APS poles on which NRC-TLD have been placed.

During our brief conversation on February 16, 1982 you asked for a point of contact in the event that circumstances required removal or relocation of any of the NRC-TLD stations.

Your normal contact with respect to the TLD stations should be with; Mr. Paul Weeden, Project Manager, Arizona Radiation Regulatory Agency, 925 South 52nd Street, Tempe, Arizona 85281, (602) 255-4845.

In the event that you need to contact the NRC, the Region V office number (415) 943-3700 will answer at any time. Inquiries may be directed to me or preferably to Mr. Jerry Hamada at that number.

Thank you for your assistance.

If we can be of any help in clarifying any of the enclosed material please let us know.

Sincerely,

H. S. North
