

March 9, 1982

Ronald W. Hernan
Licensing Project Manager
(please forward if appropriate)

Dear Mr. Hernan,

I am an intervenor in the current 50-329, 50-330 OM & OL proceeding at the Midland nuclear plant. Due to the submission date of supplemental findings of fact on March 30, 1982, I am unable to respond to the Draft Environmental Statement for the Midland plant within the allotted time.

Accordingly I hereby seek a fifteen day extension of time from the April 5, 1982 deadline (10CFR, 51.25) to April 20, 1982 in order to respond to the Draft Environmental Statement.

Sincerely,

Barbara Stamiris
