Dear Mr. Stephens:

The ASLB hearings on Louisiana Power and Light Company's Waterford 3 Nuclear Plant, which is now under construction in Taft, Louisiana are scheduled for March 23 and 24, 1982.

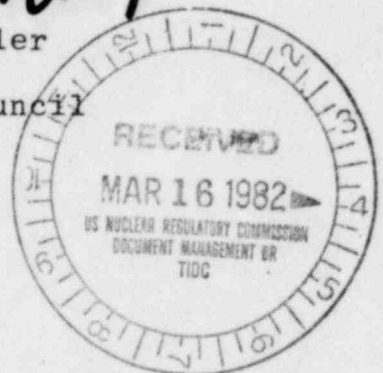

I would like to request that a representative of the West Bank Council of The Chamber/New Orleans and the River Region be placed on the agenda to speak at the meeting in support of Waterford 3 Facility, preferably the 23rd.

I hope that this meets with your approval.

Sincerely,

John N. Kuchler
