Chairman, Nuclear Regulatory Comm.
Washington, D.C. 20555

DOCKET NUMBER 50-275
PROD. & UTIL. FAC. 50-323

Dear Sir:

During a recent meeting of this Chamber, a lengthy discussion was held on the power situation as concerns us all.

The membership went on record to enlist your help in granting the Pacific Gas & Electric Company an energy and operational license to get Diablo on line.

Diablo's Nuclear Power Plant is the only feasible way for PG&E to stabilize it's electric rates.

In expressing the general opinion of the Ripon Chamber of Commerce, it is our hope that you will give full consideration to the matter.

Yours very truly,

W. Funk

Walter Funk, President
RIPON CHAMBER OF COMMERCE

N. J. Palladino
Mrs. C.F. Mulholand, Sec.

Rep. Norman D. Shumway
cc: State Senator John Garimendi
Assemblyman Pat Johnston
