MEMORANDUM FOR: Edward F. Hawkins, Section Leader  
Site Suitability and Design Section  
Low-Level Waste Licensing Branch

FROM: James A. Shaffner, Project Manager  
Low-Level Waste Licensing Branch

SUBJECT: TEST WELLS CONSTRUCTED BY USGS

The enclosed preliminary data relates to seventeen test wells constructed by USGS under contract to the NRC-02-80-069 east of the Sheffield Low-Level Waste Disposal Facility. Because small concentrations of tritium were found in two of the wells, it was determined necessary to share all physical and radiological data from the wells with the licensee, U.S. Ecology.

Refer to PNO-III-82-20 and PNO-III-82-20a dated 2/10/82 and 2/12/82 respectively, for additional information.

Original Signed By

James A. Shaffner, Project Manager  
Low-Level Waste Licensing Branch
