Dear Mr. Smith: (RE: Vermont Yankee Nuclear Power Station)

By letter dated January 15, 1982 we requested certain information from your EQ central files pertaining to equipment not involved in TMI Action Plan modifications.

We have now completed a preliminary review of your response to our Safety Evaluation concerning the Environmental Qualification (EQ) of Safety-Related Electrical Equipment for equipment involved in TMI Action Plan modifications. Our contractor (Franklin Research Center) has identified information presented in the enclosure to this letter, in most cases references from your submittals, which we need in order to complete our review. This information should all be contained in your EQ central file. For this purpose, the requested information can be taken from your EQ central file and provided to our contractor. Upon completion of the review, the information will be returned to you for replacement into the EQ central file.

We request that you supply this information within 30 days of receipt of this letter. Please send a full submittal to Franklin Research Center. The address is:

Mr. Cyril J. Crane  
Franklin Research Center  
The Parkway at Twentieth Street  
Philadelphia, Pennsylvania 19103

Provide a copy of the letter, together with a listing of the information provided, to Operating Reactors Branch #2. If you should have any problems in complying with this request, please contact your Project Manager for further assistance in this regard.

This request for information was approved by the Office of Management and Budget under clearance number 3150-0065 which expires May 31, 1983.

Sincerely,

Original signed by

Domenic B. Vassallo, Chief  
Operating Reactors Branch #2
