Confirmatory Action Letter 82-06

Gentlemen:

Based upon my telephone conversation with Mr. S. D. Ebnetter on March 12, 1982, it is understood that the intent of the first numbered item in Confirmatory Action Letter 82-06 is as follows:

1. A detailed review of all NUREG 0737 related modifications will be performed. This review will identify the status and projected schedule of completion of these modifications and any instances where the proposed design deviates from NUREG 0737 requirements.

If there are any further questions regarding this item, please contact my office.

Very truly yours,

J. J. Carey
Vice President, Nuclear
