U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

SUBJECT: Waterford 3 SES
Docket 50-382
Emergency Plan

Dear Sir:

In accordance with 10CFR50.47, please find enclosed ten copies of the Waterford 3 Steam Electric Station Emergency Plan. The enclosed plan replaced the document transmitted to you on February 22, 1982. The plan submitted under cover letter W3P82-0471 on February 22, 1982, was inadvertently marked Draft 3 vice Revision 3.

We are also submitting ten copies of a substitute Appendix D to the subject plan. Appendix D is the Louisiana Peacetime Radiological Response Plan and should replace the document which was included as Appendix D in the February 22, 1982, submittal. The new Appendix D is the same, except that the cover sheet has been changed to correctly designate it as Revision 4, February, 1982 (rather than Revision 3, September, 1981, which was an incorrect designation on the version previously submitted). There are also indications on the replacement version, by carets, underlining, and vertical lines, to indicate changes from a previous version of the State Plan. (The previous version of the State Plan was not formally submitted in this docket.)

If there are any questions pertaining to this submittal, please contact Mr. Robert Azzarello at (504) 363-8783 of my staff.

Very truly yours,

G. D. McLendon
