ATTN: Fred Frangillo, Jr.  
Radiation Safety Officer  
11011 Richmond Avenue, Suite 800  
Houston, Texas 77042

Gentlemen:

This refers to the routine, unannounced radiation safety inspection conducted by Mr. Lee Franklin of our Region II office (Atlanta, Georgia) on April 16, 1990, of the activities authorized by NRC Byproduct Material License No. 42-26900-01 at your Richmond, Virginia, field office, and to the discussion of our findings held by the inspector with members of your staff at the conclusion of the inspection.

The inspection was an examination of the activities conducted under the license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of the license. The inspection consisted of selective examinations of procedures and representative records, interviews of personnel, independent measurements, and observations by the inspector.

No violations or deviations were identified.

Should you have any questions concerning this letter, we will be pleased to discuss them with you.

Sincerely,

Original Signed By:  
LAWRENCE A. YANDELL
