Gentlemen:

This refers to your application dated June 5, 1974, for renewal of License No. 29-08864-04E. Since your application was submitted more than thirty (30) days prior to the expiration date, the license will remain in effect until final action is taken on your application.

In order to continue review of your application, we need to know the specific devices which you wish to distribute and the quantity of americium 241 which will be in each device model. Information as specified in Section 32.26, 10 CFR Part 32, should be submitted concerning each device model which you wish to distribute or clear and specific references to previously documents which provide the information should be submitted.

Sincerely,

14
