Washington, D.C. 20555

Dear Mr. Selin,

I am writing to urge you to advise the NRC licensing board to deny S.C.S. application to construct a uranium enrichment facility in Homer, Louisiana. The local communities of Forest Grove and Center Springs are adamantly opposed to having the S.C.S. plant in their backyard. The plant will have a negative social and environmental impact on the area. I also encourage you to take a close look at the issue of environmental racism and the role it might have played in deciding to site the plant so near to the two small black communities.

Thank you very much for your time.
Any response to this letter would be appreciated.

Sincerely,

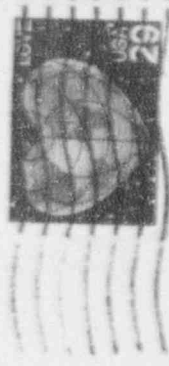

Mike Campbell
