Ivan Selin, Chairman
United States Regulatory Commission
Washington, D.C. 20555

I am writing to you because I'm concerned about the construction of the U.S.'s first privately owned uranium enrichment plant in Louisiana. Not only is this process hazardous to the lives of those who live in the area, who adamantly oppose the plant, but uranium enrichment is also harmful to the Earth and generations to follow.

I encourage you to research this issue and to advise the NRC licensing board to deny LES' application to construct the plant in Louisiana.

Thank you for your attention.

Sincerely,
Megan Kimball
