Ivan Selin, Chair
United States Regulatory Commission
Washington, District of Columbia

Sir:

There is a history of "environmental racism" that must be stopped, which is the reason I am asking that you deny Louisiana Energy Services their permit to construct a uranium enrichment facility in Homer, Louisiana.

Two local communities are opposed and understandably so, when local people rely on the Lake Claiborne for their drinking water and when local roads leading to and from these two communities will be re-routed. Why is it always the poor folks who must suffer inconvenience and FEAR?
