Nuclear Regulatory Commission
Washington, DC 20555

Dear Chairman Selin,

I am writing to you because I'm
concerned about the environment.
Louisiana Energy Services wants to
build a Nuclear power plant in
Homer, Louisiana.

I hope you don't let LES build
the power plant. We don't need a power
plant there. The waste stays in the
ground forever. It could get in to
the food chain.

Thank you for your time.
I hope you do the right thing.

Sincerely,
Alexander Cragg
