Ivan Selin, Chairman
United States Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Selin:

I am shocked and angered to hear of a plan to build an unnecessary and dangerous uranium enrichment facility near the communities of Forest Grove and Center Springs, Louisiana. Please consider the environmental racism of targeting the communities of poor black people as dumping grounds for nuclear waste.

There is already a world surplus of enriched uranium.

Please do what you can to stop the Louisiana Energy Services from going through with this plan, which is solidly opposed by the citizens of these two small towns.

Thank you.
