Ivan Selin, Chairman
United States Nuclear Regulatory Commission
Washington, D.C. 20555

171-13070

April 29, 1993

Dear Ivan Selin,

I am writing to urge you to advise the NRC
licensing board to deny LES' application to construct
a uranium enrichment facility in Homer, Louisiana.
A byproduct of the enrichment process will be tons
of radioactive uranium, which as you know, remains
hazardous for millions of years. There is no safe
place to store it; other environmentally safe methods
must be used.

No community should be asked to house this
type of facility. Please spare Homer, Louisiana.

Thank you for your consideration on this matter.
I look forward to hearing your decision.
