Attn: Document Control Desk

Re: University of Florida Training Reactor  
Facility License: R-56; Docket No. 50-83

Gentlemen:

The current operator requalification and recertification program training cycle for the University of Florida Training Reactor as submitted with a letter dated May 31, 1991 and then updated via a letter dated December 26, 1991 with a completely revised and updated UFTR Operator Requalification and Recertification Program is scheduled to end in June, 1993. Therefore, we propose to renew the current plan with no changes except for the new dates. In effect, the revised plan will be essentially the same as that currently being used for the two-year training cycle. A copy of this revised plan is included as Enclosure 1 with this letter for reference purposes. This renewed plan as included here will cover the UFTR operator requalification and recertification program from July, 1993 through June, 1995.

As usual, we propose to continue using this proposed program beyond the next two-year cycle; that is, we will automatically restart the same two-year requalification and recertification program training cycle every two-years beginning in July, 1995.

If you need further information on this plan or the proposed usage of it for all future two-year training cycles, please let us know.

STATE OF FLORIDA  
COUNTY OF ALACHUA

The foregoing instrument was acknowledged before me this May 28, 1993 by William G. Vernetson who is personally known to me and who did not take an oath.

Sincerely,

William G. Vernetson  
Director of Nuclear Facilities
