Joseph M. Farley Nuclear Plant  
Revision 11 to the Final Safety Analysis Report (FSAR) Update

Gentlemen:

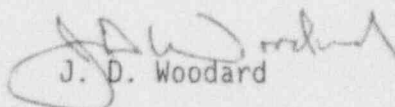

In accordance with the requirements of 10 CFR 50.71(e), Southern Nuclear Operating Company (SNC) hereby submits Revision 11 to the Joseph M. Farley Nuclear Plant - Units 1 and 2 FSAR Update. This submittal includes revised FSAR information which accurately reflects (1) changes made to the facility, procedures, or technical specifications, and (2) information or analyses submitted to the Commission or prepared pursuant to Commission requirements, from January 1, 1992 through December 31, 1992. Additionally, the information submitted includes changes identified in the annual report under the provisions of 10 CFR 50.59(b). As required, this submittal is provided on a replacement-page basis, and is accompanied by an effective page list that identifies the current pages of the FSAR.

Pursuant to 10 CFR 50.4(b), the original and 10 copies are being submitted to the Commission's Document Control Desk, and a copy is also being supplied to the NRC Region II office and the NRC Resident Inspector.

In accordance with the rule change for 10 CFR 50.71(e)(4) that allows revisions to be filed 6 months after each refueling outage, SNC plans to start filing revisions to the FSAR Update 6 months after each Unit 1 outage. Therefore, Revision 12 to the FSAR Update will be filed six months following completion of the next Unit 1 refueling outage presently scheduled for the spring of 1994.

If you have any questions, please advise.

Respectfully submitted,

  
J. D. Woodard
