PROTECTIVE MEASURES TECHNICAL WORKSHOP (SP-90-119)

You are invited to attend a Protective Measures Technical Workshop to be held on September 26-27, 1990, in Baltimore, Maryland at the O'Connor State Office Building. The workshop is designed to provide a detailed understanding of the technical tools used for assessment of protective measures issues. The workshop will begin at 9:00 a.m. on September 26 and end at 5:00 p.m. on September 27.

Upon completion of the workshop, the student will have the ability to use and teach others the use of the technical tools involved in classification, core damage, source term, dose consequence and protective measures assessment. The workshop will involve considerable hands-on application of paper procedures and an introduction to the computer based assessment tools (i.e., RASCAL Code). These procedures are used by the NRC response organization during the assessment of severe reactor accidents and to a lesser extent for other accidents.

NRC will fund travel and per diem for two individuals from each State to attend the workshop. We suggest each State make the decision as to which individuals should attend. The workshop is designed for response personnel with technical responsibilities in protective measures assessment.

We have enclosed a draft agenda of the topics to be featured in the course. Please use the enclosed registration form(s) to indicate which State employees will be attending and the details of their travel plans. Use a separate form for each traveler and return them by August 17. In addition, please contact Brenda Hill, (301) 492-0348, and provide her with your travel information as soon as possible.

We have reserved a block of rooms for the evenings of September 25 and 26 at the Belvedere Hotel at the special government rate of \$60/single, plus tax. Brochures on the hotel are also enclosed. The deadline for making room reservations is August 25. To make your hotel reservations, please call 1-800-692-2700.

If you are traveling by air, please call our travel contractor, Dimensions Travel Company, at (301) 986-8949 no later than August 17. Dimensions will make your reservations and mail a ticket to you. Please do not make your own airline reservations or purchase your own tickets. If you are traveling by car, you still need to contact Brenda Hill with your travel information.

For further information on the workshop itself, please call Mindy Landau at (301) 492-0308, or Tom McKenna at (301) 492-4184.

Sincerely,

A handwritten signature in cursive script, appearing to read "Carlton Kammerer". The signature is written in dark ink and is positioned above the printed name and title.

Carlton Kammerer, Director
