ALL AGREEMENT STATES

MEDICAL QUALITY ASSURANCE (QA) MEETING (SP-91-25)

On February 7-8, 1991 the NRC's Office of Research held a public meeting in San Mateo, California on the Medical Quality Assurance Rule.

Enclosed is a copy of the meeting Agenda.

This meeting was the third and final opportunity for State personnel to provide input to this rule. Earlier meetings held in Rockville, Maryland and Irving, Texas proved to be quite fruitful. Discussions this time centered on a recommendation that the rule be made a Division II or III item of compatibility. New York and Illinois representatives discussed their rules and a line-by-line review of the rule as proposed by the NRC's Medical Advisory Committee was conducted.

A copy of the final rule will be sent to you upon publication.

Vandy L. Miller, Assistant Director
for State Agreements Program
State Programs
Office of Governmental and Public Affairs

Enclosure:
As stated
