

June 24, 1993

Docket No. 50-334

Mr. J. D. Sieber, Senior Vice President
and Chief Nuclear Officer
Nuclear Power Division
Duquesne Light Company
Post Office Box 4
Shippingport, Pennsylvania 15077-0004

Dear Mr. Sieber:

SUBJECT: RESPONSE TO REQUEST FOR ADDITIONAL INFORMATION (TAC NO. M84673)

The purpose of this letter is to alert you to the staff's need for certain information so that we can continue our review of your proposal to increase spent fuel capacity for Unit 1. On January 25, 1993, a request for additional information was forwarded to you, and a response was requested within 30 days of receipt. As of June 24, 1993, we had received no response, although assurances of a response have periodically been obtained by telephone. The NRC review of the proposal is a complex one covering multiple technical areas. More questions could be forthcoming, although we do not anticipate any at this time. We are making every effort to support your requested amendment issuance schedule of November 1, 1993.

The requirements of this letter affect fewer than 10 respondents, and, therefore, are not subject to the Office of Management and Budget review under PL 96-511.

Sincerely,
Original signed by:
Gordon E. Edison, Senior Project Manager
Project Directorate I-3
Division of Reactor Projects - I/II
Office of Nuclear Reactor Regulation
