

UNITED STATES
NUCLEAR REGULATORY COMMISSION

WASHINGTON, D.C. 20555-0001

June 29, 1993

Docket Nos. 50-498
and 50-499

Mr. N. J. Liparulo
Manager of Nuclear Safety
and Regulatory Activities
Westinghouse Electric Corporation
P. O. Box 355
Pittsburgh, Pennsylvania 15230-0355

Dear Mr. Liparulo:

SUBJECT: REQUEST FOR WITHHOLDING INFORMATION FROM PUBLIC DISCLOSURE
(CAW-93-438)

By letter dated May 27, 1993, Houston Lighting & Power Company submitted the Westinghouse report, "Westinghouse Setpoint Methodology for Protection Systems - South Texas Units 1 & 2" (WCAP-11273, Rev. 2) and requested that it be withheld from public disclosure pursuant to 10 CFR 2.790.

A letter dated May 6, 1993 and an affidavit dated May 7, 1993, from Westinghouse, the owner of the information, were included in the application. Westinghouse states that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

- "(a) The information reveals the distinguishing aspects of a process (or component, structure, tool, method, etc.) where prevention of its use by any of Westinghouse's competitors without license from Westinghouse constitutes a competitive economic advantage over other companies.
- "(c) Its use by a competitor would reduce his expenditure of resources or improve his competitive position in the design, manufacture, shipment, installation, assurance of quality, or licensing a similar product."

We have reviewed your submittal and the material in accordance with the requirements of 10 CFR 2.790 and, on the basis of Westinghouse Electric Corporation's statements, have determined that the submitted information, sought to be withheld, contains trade secrets or proprietary commercial information.

Therefore, we have determined that the document entitled "Westinghouse Setpoint Methodology for Protection Systems - South Texas Units 1 & 2" marked as proprietary will be withheld from public disclosure pursuant to 10 CFR 2.790(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

NRC FILE CENTER COPY

June 29, 1993

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the document. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You should also understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC needs additional information from you or makes a determination adverse to the above, you will be notified in advance of any public disclosure.

Sincerely,

Original Signed By

Suzanne C. Black, Director
Project Directorate IV-2
Division of Reactor Projects III/IV/V
Office of Nuclear Reactor Regulation
