Suite 212
Washington, D. C. 20036

Dear Mel:

Your letter of April 30, 1992, raises important issues that warrant careful Commission consideration. I have seen Mr. Trevino's letter, which you forwarded.

The staff is working to resolve these issues and has had the benefit of earlier correspondence from Science Applications International Corporation (SAIC) and a thorough presentation by SAIC at the public workshop held on March 26, 1992. I anticipate that the staff will shortly provide the Commission with its recommendations on the matters raised by public comments and I am hopeful that the matter can be resolved before the July-August estimate given earlier by the staff.

Sincerely,

Ivan
