Mr. James R. Mason  
U. S. Atomic Energy Commission  
Division of Licensing and Regulation  
Isotopes Branch  
Washington 25, D. C.

Dear Mr. Mason:

Re: L and R: IB: DAS (29978)

After much consideration our Isotope Committee has decided to withdraw, at this time, our application of September 30, 1960 for a broad license and herewith submit renewal applications for Licenses 34-7225-1 and 34-7225-9.

These requests for renewal amount to continuation of our licensed activities essentially as currently licensed. Minor changes have been indicated.

We will continue our isotope activities under the following licenses:

34-7225-1 (renewal application enclosed)  
34-7225-4 (L63)  
34-7225-5 (L-63)  
34-7225-8 (L62)  
34-7225-9 (renewal application enclosed)  
34-7225-10 (C62)

New uses will be handled by application for specific licenses.

We regret the delay in resolving this situation, but the decision was not an easy one. We trust the enclosed applications will provide the information necessary to complete review of our licensing.

Sincerely,

PICKER X-RAY CORPORATION
