License No. 29-02023-05

Dear Dr. Brown:

Subject: Routine Inspection No. 030-10074/93-001

This letter refers to your June 2, 1993 correspondence, in response to our May 12, 1993 letter.

Thank you for informing us of the corrective and preventive actions documented in your letter. However, a review of the results of monthly spot checks by the Radiation Safety Officer does not meet the regulatory requirements of 10 CFR 35.634(c), which requires, in part, that the teletherapy physicist review the results of monthly spot checks within 15 days. It is our understanding that the Teletherapy Physicist on your NRC license resigned in May, 1993. From our telephone conversation of June 21, 1993, with Mr. August DeClemente of your staff, we also understand that you still do not have a teletherapy physicist nor you have submitted a request to amend your NRC license to replace your teletherapy physicist.

Please inform this office within seven days from the receipt of this letter how you are meeting all the requirements of 10 CFR 35.634(c) in the absence of an approved teletherapy physicist, and what steps you have taken and plan to take to bring your licensed activities in full compliance with all regulatory requirements including those of 10 CFR 35.634(c) and 35.606(e).
