Docket Nos. 50-266
and 50-301

Mr. C. W. Fay
Assistant Vice President
Wisconsin Electric Power Company
231 West Michigan Street
Milwaukee, Wisconsin 53201

Dear Mr. Fay:

RE: TMI ACTION PLAN ITEM II.K.3.3, REPORTING RELIEF VALVE (RV) AND SAFETY VALVE (SV) FAILURES AND CHALLENGES.

We have reviewed your response dated March 31, 1981 to the above TMI Action Plan item for Point Beach Nuclear Plant Units 1 and 2. You have committed to meeting the reporting requirement provided in our May 7, 1980 guidance letter including a report on RV and SV failures and challenges for the period April 1, 1980 through December 31, 1980 and future reporting of RV and SV failures and challenges. No further review of this item by NRR is planned. Because you have committed to meeting the above reporting requirements, we consider this item resolved for your facilities.

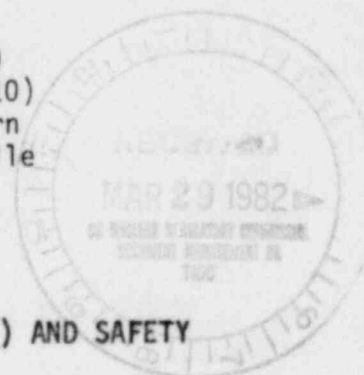

However, though your March 31, 1981 letter addressed this reporting requirement for 1980, this information was missing from your 1981 Annual Report for Point Beach Units 1 and 2. As discussed by telephone conversation with members of your staff, we consider this an oversight on your part. We request that you update your 1981 Annual Report for Point Beach Units 1 and 2 with an errata sheet to correct this discrepancy.

We also wish to formalize these reporting requirements; therefore, we will contact you in the future requesting that you incorporate the reporting requirements in your Technical Specifications.

Sincerely,

Robert A. Clark, Chief
Operating Reactors Branch #3
Division of Licensing

Utility Address

Dear Mr. :

RE: TMI Action Plan Item II.K.3.3, Reporting Relief Valve and Safety Valve Failures and Challenges

We have reviewed your response(s) dated _____ to the above TMI Action Plan item. You have committed to meeting the reporting requirements provided in our previous guidance including a report on relief valve (RV) and safety valve (SV) failures and challenges for the period 4/1/80 through 12/31/80 and future reporting of RV and SV failures and challenges. No further review of this item by NRR is planned. Because you have committed to meeting the above reporting requirements, we consider this item resolved for your facilities.

However, we wish to formalize these reporting requirements; therefore, we will contact you in the future requesting that you administratively incorporate the reporting requirements in your Technical Specifications.

Sincerely,

, Chief
