Inspection Summary: Special, Unannounced Physical Protection Inspection on February 8-12, 1982 (Report No. 50-334/82-03)

Areas Inspected: Review of actions taken relative to the devitalization of the Primary Auxiliary Building and review of an open item on excessive guard overtime. The inspection involved forty-seven inspector hours onsite by one NRC Region-based inspector. The inspection was initiated during regular working hours; eleven inspector hours were accomplished during offshift periods.

Results: The licensee was found to be in compliance with NRC requirements in the areas inspected.
