Docket Nos. 50-373/374

Mr. Louis O. DelGeorge
Director of Nuclear Licensing
Commonwealth Edison Company
Post Office Box 767
Chicago, Illinois 60690

Dear Mr. DelGeorge:

Subject: Deletion of Technical Specifications from Chapter 16 of the
La Salle Final Safety Analysis Report

In a letter dated March 19, 1982, Commonwealth Edison Company requested to delete the proposed Technical Specifications from Chapter 16 of the La Salle Final Safety Analysis Report (FSAR) and substitute in Chapter 16 a statement explaining that the Technical Specifications are Appendix A to the associated Operating License. It was indicated that during the life of the station, the Technical Specifications will be changed and amended. However, the FSAR will be revised eventually on only an annual basis. Therefore, to avoid confusion, you made the above request and asked for NRC approval. We concur with this request.

Sincerely,

A. Schwencer, Chief
Licensing Branch No. 2
Division of Licensing
