Re: Freedom of Information Request

Gentlemen:

Pursuant to the provisions of the Freedom of Information Act, 5 U.S.C. § 552, and to your regulations governing such requests, 10 CFR § 9.3, et seq, I request access to and copies of the following document:

Any and all record, including but not limited to microfilm, tape, charts, data files, data sheets, computer print outs, computer cards, etc., within the meaning of 10 CFR § 9.3 (a) (b), relating to

(a) running of any version of the Calculations of Reactor Accidents Consequences computer code for the Limerick Nuclear Generating Facility (Docket No. 50-352,353);

(b) running of any version of the MARCH computer code for the Limerick Nuclear Generating Facility (Docket No. 50-352).

Pursuant to 10 CFR § 9.14 (a), I request a waiver of the fees for the search for and reproduction of these records. The information obtained from the records will be disseminated to the general public in the Limerick facility area by press release, and other means with further analysis and comment by Limerick Ecology Action and its representatives. This will be done with the expected benefit of further informing the public in the Limerick facility area of the nature of the risk involved in possible

operation of the Limerick facility. The information will also thereby contribute substantially to public debate on the policies involved in siting a reactor close to an urbanized area by providing technical information upon which appropriate policies should be based.

Neither myself, nor Limerick Ecology Action, will financially benefit from the use of the requested materials.

Limerick Ecology Action has limited ability to pay for the requested records, in that it is a public interest organization, funded solely from contributions and periodic fund raising events.

I would appreciate a disposition of this request as expeditiously as possible, and look forward to your response within the 10 day period required by law. Thank you.

Very truly yours,

CHARLES W. ELLIOTT
