Duke Power Company  
ATTN: Mr. W. O. Parker, Jr.  
Vice President, Steam Production  
P. O. Box 2178  
Charlotte, NC 28242

Gentlemen:

Subject: Report Nos. 50-413/82-03 and 50-414/82-03

This refers to the routine safety inspection conducted by Mr. P. K. Van Doorn of this office on December 26, 1981 - January 25, 1982, of activities authorized by NRC Construction Permit Nos. CPPR-116 and CPPR-117 for the Catawba facility. Our preliminary findings were discussed with Mr. J. C. Rogers, Project Manager, at the conclusion of the inspection.

Areas examined during the inspection and our findings are discussed in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

During the inspection, it was found that certain activities under your license appear to violate NRC requirements. These items and references to pertinent requirements are listed in the Notice of Violation enclosed herewith as Appendix A. Elements to be included in your response are delineated in Appendix A.

We have examined actions you have taken with regard to previously identified enforcement matters. These are discussed in the enclosed inspection report.

Two new unresolved items are identified in the enclosed inspection report. These items will be examined during subsequent inspections.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosures will be placed in the NRC's Public Document Room unless you notify this office, by telephone, within ten days of the date of this letter and submit written application to withhold information contained therein within thirty days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1).

The responses directed by this letter and the enclosures are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
