SHEARON HARRIS NUCLEAR POWER PLANT UNIT 1
DOCKET NO. 50-400
DEFICIENCIES IN WELDED STUDS ON EMBEDDED STRIP PLATES

Dear Mr. O'Reilly:

Attached is Addendum No. 1 to the final 10CFR50.55(e) report issued to the NRC on March 19, 1982, for the above subject deficiency. This addendum describes an additional occurrence and the associated required corrective action. Please attach this addendum to the March 19, 1982, final report.

If you have any questions regarding this matter, please contact me.

Very truly yours,

N. J. Chiang-Manager

SHEARON HARRIS NUCLEAR POWER PLANT

UNIT NO. 1

DEFICIENCIES IN WELDED STUDS
ON EMBEDDED STRIP PLATES

ADDENDUM NO. 1 TO FINAL REPORT
ISSUED MARCH 19, 1982

April 15, 1982

On April 5, 1982, N. J. Chiangi notified the NRC (Mr. C. Julian) that another DDR had been written identifying the same type problem reported in a final 10CFR50.55(e) report dated March 19, 1982. During the discussion, it was agreed that since this additional DDR (No. 862) dealt with the same type deficiency, material and corrective action, it was not necessary for CP&L to provide an additional report. CP&L has provided the same corrective action for DDR No. 862 as indicated in the final report dated March 19, 1982.
