Division of Emergency Preparedness
U.S. Nuclear Regulatory Commission

FROM: *Richard W. Krimm*
Richard W. Krimm
Assistant Associate Director
Office of Natural and Technological Hazards

SUBJECT: Supplemental Finding on the Enrico Fermi Atomic Power
Plant, Unit 2

Attached is supplemental information to our January 26, 1982, Interim Finding on the Enrico Fermi Atomic Power Plant, Unit 2. The information, prepared by FEMA Region V, is a final report of the February 2, 1982, full-scale joint exercise and consists of an evaluation of planning standards A-P based on the exercise and the Michigan State and Monroe and Wayne County site specific plans.

The report was transmitted to the State of Michigan on March 10, 1982, with a request that a schedule of remedial actions to the listed deficiencies be provided by April 6, 1982. Once corrective action has been taken on the significant deficiencies by the State and local governments, the offsite radiological emergency planning should be adequate to protect the health and safety of the public within the 10 and 50-mile emergency planning zones.

MEMORANDUM FOR: Assistant Associate Director, Office of Natural
and Technological Hazards

FROM: Regional Director, Region V

SUBJECT: Enrico Fermi Final Report

Forwarded for your review is the Final Report of the Enrico Fermi Atomic Power Plant, Unit II, full scale exercise conducted on February 1 and 2, 1982. Participating in the exercise with the utility was the State of Michigan, Monroe County and Wayne County. Observing the off-site portion of the exercise were representatives from Federal Emergency Management Agency Region V, the Regional Advisory Committee, and personnel from the Argonne National Laboratory.

A Post-Exercise Critique and Public Meeting were conducted on February 3, 1982.

FEMA Region V (in accordance with 44 CFR Part 350), intends to provide you with the "Regional Director's Formal Review" of the site-specific plans for Fermi II as soon as possible.

for 
John T. Anderson
Regional Director
