Quality Assurance Branch
Division of Project Management

Subject: GE-NEBO Organizational Changes

In Licensing Topical Report NEDO-11209-04A, Revision 3, the Nuclear Energy Business Operation of General Electric Company committed to notify the NRC of organizational changes affecting the BWR QA Program within thirty days of implementation. In compliance with this commitment, notification of organizational changes effective April 19, 1982, as documented on the attached draft charts, Figures 1-1, 1-2, 1-5, 1-6, 1-7, and 1-8 (pages 1-13, 1-14, 1-17, 1-18, 1-19, and 1-20 of NEDO-11209-04A, Revision 3), is transmitted herein.

Overall, effective April 19, 1982, the Nuclear Energy Business Operations were restructured as follows:

- The principal resources for the fuel business were consolidated in the Nuclear Fuel and Special Projects Division.
- The Nuclear Engineering Division was restructured and now includes the Nuclear Energy Purchasing Operation. Nuclear Fuel Engineering was transferred from the Nuclear Engineering Division to the Nuclear Fuel and Special Projects Division.
- No changes were made in the present organizations and reporting relationships of the Nuclear Power System Division and the Nuclear Energy Business Operations' staff.
- The Nuclear Services Department and the Nuclear Control & Instrumentation Department report directly to the Vice President and General Manager, Nuclear Energy Business Operations.

The organizational changes herein identified will not result in any decrease in the effectiveness of the overall quality assurance program. Further changes below the Department/Operation level are in the process of review and approval. Therefore, portions of some charts have been intentionally left blank. You will be notified of further organizational changes within thirty days of implementation, per our commitment.

A. Breed, Manager
Quality Assurance Section
