0 2	
0 3	received for hydraulic control unit (HCU) No. 30-43. The subject HCU was then
0 4	declared inoperable in accordance with technical specifications. This event did
0 5	not affect the health and safety of the public.

10	The annunciation is attributed to a high water level in the HCU caused by leakage
111	around the HCU piston seals. The water level in the HCU was reduced to reset the
1 2	annunciation and the HCU was returned to service within one hour and twenty minutes
1 3	of the event. This is considered an isolated occurrence and no further action is
1 4	planned.
