Docket No. 50-373

Mr. Louis O. DelGeorge  
 Director of Nuclear Licensing  
 Commonwealth Edison Company  
 P. O. Box 767  
 Chicago, Illinois 60690

Dear Mr. DelGeorge:

Subject; La Salle County Station, Unit 1 Revised Reactor Vessel Materials  
 Surveillance Program Withdrawal Schedule

In Commonwealth Edison's letter dated April 8, 1982, it was indicated that the specimen holders containing the surveillance specimens for the reactor vessel materials are welded-closed enclosures. Therefore, you stated that it was not realistic to remove samples from each holder to obtain the number of surveillance specimens required, but instead proposed to remove an entire holder at a time to obtain the required specimens. We find the requested change acceptable.

Sincerely,

A. Schwencer, Chief  
 Licensing Branch No. 2  
 Division of Licensing
