Suite 1100
Washington, D. C. 20036

Dear Mr. Voigt:

This is in response to your letter of February 26, 1982 notifying the Commission of the planned change in the present dual incorporation status of Detroit Edison Company.

We understand from your letter that Detroit Edison is incorporated in the state of New York and also incorporated in the state of Michigan. We understand that Detroit Edison plans to terminate its incorporation in the state of New York. This, however, will not modify Detroit Edison's corporate organization, its corporate structure, or otherwise affect its status of incorporation in the state of Michigan. We understand that otherwise, the corporation remains with the same characteristics described in the application for license to the Nuclear Regulatory Commission.

Accordingly, we find no need for prior approval by the NRC of the specific change described in your letter of February 26, 1982.

Sincerely,
