Dear Mr. Denton:

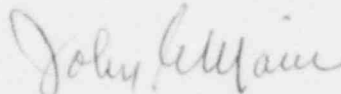

In accordance with the provisions of Title 10 Part 50.54(p) Code of Federal Regulations we are transmitting Revision No. 17 to the R.E. Ginna Nuclear Power Plant, Unit No. 1 Security Plan.

The revisions which have been made to sections 1.4.1 - 1.4.2 - 1.4.3.1 - 1.4.4 address our commitments in relation to selection, screening, training and retraining of members of the security force. We have made these revisions in order to make our Security Plan consistent with our recently approved Training and Qualification Plan. These revisions to the Security Plan do not decrease or degrade the effectiveness of security at Ginna Station.

Enclosed for your records are five copies of revised pages 1:9, 1:11 and 1:12. Sections of these pages which have been revised are denoted by the numeral seventeen (17) appearing in the right hand margin.

The enclosures to this letter contain Safeguards Information which should be protected from public disclosure per Part 73.21 Code of Federal Regulations.

Very truly yours,

John E. Maier
