ATTN: Mr. H. G. Parris
Manager of Power
500A Chestnut Street Tower II
Chattanooga, TN 37401

Gentlemen:

Subject: Report Nos. 50-327/82-04 and 50-328/82-04 CORRECTION

This refers to the routine safety inspection conducted by Mr. E. J. Ford of this office on February 6 - March 5, 1982, of activities authorized by NRC Operating License Nos. DPR-77 and DPR-79 for the Sequoyah facility. Our preliminary findings were discussed with Mr. C. C. Mason, Plant Superintendent, at the conclusion of the inspection.

Appendix A and page 4 of the report details to our letter dated March 25, 1982 contained errors. A corrected copy of Appendix A and the report are enclosed. We regret any inconvenience this may have caused.

Areas examined during the inspection and our findings are discussed in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspectors.

During the inspection, it was found that certain activities under your license appear to violate NRC requirements. These items and references to pertinent requirements are listed in the Notice of Violation enclosed herewith as Appendix A. Elements to be included in your response are delineated in Appendix A.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosures will be placed in the NRC's Public Document Room unless you notify this office, by telephone, within ten days of the date of this letter and submit written application to withhold information contained therein within thirty days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1).

The responses directed by this letter and the enclosures are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
