Columbia, SC 29218

Gentlemen:

Enclosed for your information is the NRC Region II Incident Response Plan dated March 1982. This plan has been issued as Supplement 2 to NUREG-0845, "Agency Procedures for the NRC Incident Response Plan." The plan and procedures are currently implemented and reflect NRC actions, tasks, functions, authorities and responsibilities during emergencies at nuclear power plants and fuel cycle facilities.

We are providing the Regional Plan to each NRC fuel cycle licensee and to each of their respective sites, to appropriate State officials, and to regional Federal agencies. We hope you will find this plan of benefit in your understanding of the NRC response to an emergency and that this improved understanding will add to the effectiveness of our coordination during an emergency.

If you have any questions regarding our plan, please direct them to Mr. G. Gibson, Emergency Preparedness Coordinator (404) 221-4178. We would appreciate your acknowledgement of the receipt of this plan and instructions for us to follow to forward any future revisions.

FOR THE REGIONAL ADMINISTRATOR

J. Philip Stohr  
J. Philip Stohr, Director  
Division of Emergency Preparedness  
and Operational Support
