Gentlemen:

Thank you for your letter, dated May 20, 1982, entitled "Potential Failure of Turbine Driven Auxiliary Feedwater Pump Steam Supply Line." We have reviewed your corrective actions to be taken in the interim until a design evaluation can be completed and have no further questions at this time.

We have referred your letter to the Office of Nuclear Reactor Regulation for their review and for consideration of generic aspects. Following completion of your engineering evaluation, please include the licensing project manager on the distribution for your future reports on this matter.

Sincerely,

"Original Signed by:  
W. C. SEIDLE"
