TEHQ FILE COPY

Gentlemen:

SUBJECT: YOUR RESPONSE TO PERFORMANCE APPRAISAL INSPECTION 50-334/81-29

This letter refers to your February 26, 1982 response to our letter of December 28, 1981, reporting the results of the Performance Appraisal Inspection conducted during October and November 1981 at the Beaver Valley Power Station, Unit 1, and your corporate office.

The corrective actions described in your letter are being reviewed by the NRC Regional Office. Based upon conversations with the Senior Resident Inspector, we understand that you intend to provide us with a supplementary response concerning Class II instrument calibrations and the status of the maintenance backlog work by April 15, 1982.

We would be happy to discuss any further questions you may have regarding these matters.

Sincerely,

James M. Taylor, Director
Division of Reactor Programs
Office of Inspection and Enforcement
